NOTICE OF PRIVACY PRACTICES – SHORT FORM**

Our practice is committed to educating our patients about healthcare issues that affect them. As a result, we are providing you with general information about the Privacy Rule, a federal regulation of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) along with a brief overview of our Notice of Privacy. Our practice is complying with HIPAA's regulations.

What is HIPAA and how does the Privacy Rule affect you?

When the Health Insurance Portability and Accountability Act (HIPAA) was passed in August of 1996 this gave the federal government the ability to mandate how healthcare plans, providers, and clearinghouses store and send a patient's personal information as it relates to healthcare. The Privacy Rule was created to protect your rights as a patient of our practice and we are required by law to be compliant with this regulation on April 14, 2003. Under the Privacy Rule you are guaranteed access to your medical records, allowed control over how your protected health information is used and disclosed and allowed to take action if your privacy is compromised by following the practice's policy. Our practice is dedicated to maintaining the privacy of your personal information.
